\*Don't assume you are healthy, once you reach the age of 40 go for regular medical check ups.

\*Early medical check ups helps to detect and go for early medical treatments.

\*If you are having health complications or becoming weak quickly go for check up.

\*Avoid extremes of emotions, such as being sad or fearful. Do every thing to protect your health.

\*Guard your health with all diligence (Proverb 4 : 22).

\*Our Eyes and Ears are the channels through our Heart, so we should be mindful of what we listen to or see as it can shut down the Heart.

\*Relationship also affect the Heart, if your relations are unhealed then it might affect your Heart.

\*We also align with the word of God.

\*To guard our Hearts, we should also guard our Homes and take care of our Spouse and Family.

\*Those that have sudden heart attacks, they have it from 8am and 8pm when our heart rate is going up from different care about life issues.

\*Even though you work, don't be anxious as the word of God says.

\*We need to be proactive to control Heart Attacks and High Blood Pressure.

\*Then we should also check our Cholesterol level and avoid using oil that sleeps or too much oil.

\*We should think on whatever is pure or good (Phil. 4 : 8).

\*Then we should exercise regularly as well by walking, skipping rope etc. as it helps to keep our body strong and fit.

\*Then we should not just be eating and eating, we are to eat only when we are hungry

\*Fasting also helps us to live long, it has spiritual and physical benefits.

\*Then we also need rest, as we work we should also find time to rest because God also rested.

\*When you are under medication, don't stop taking it until your doctor says you shouldn't.
